Very Fine Double Named Hyacinths

Price, Your Selection, 10 Cents Each.

THERE is nothing in the line of bulbs which will give such genuine satisfaction as the Hyacinth. Producing as it does such elegant spikes, and with its great durability and fragrance, it is unexcelled for out-door or window culture. Our grower is one of the best in Holland, and we list below such varieties as we know are especially fine for producing fine spikes, large bells, and exquisite colorings. Our bulbs are of good size, solid and well formed. Named Hyacinths are to be preferred to unnamed and mixed.

Prince of Waterloo—Pure white, large, compact spike. Very fine for early forcing, for which it is used in enormous quantities. We recommend this for growing in quantity, either for forcing or for out-door. It always gives good satisfaction.

Czar Nicholas—An early sort with rosy-pink bells. A favorite and beautiful variety, and very durable.

Bloksburg—Porcelain blue, marbled, extra large bells and spikes, one of the finest light blue Hyacinths in cultivation.

La Virginite—(The Virgin.) Beautiful blush white; flowers and spikes well formed, and very large; good for pots and glasses.

Garrick—Splendid bright blue, with dark center; extra large truss; early.

Prince of Saxony—Dark glittering blue, very fine large truss; early and easy to force.

Prince of Orange—Deep scarlet, extra large, compact spike, very early. This variety is found in every collection for exhibition, which is proof of its great value.

Bouquet Royal—Most beautiful compact spikes of large ivory-white flowers; double and finely imbricated.

Double Charles Dickens—Fine dark-blue, shaded lilac; large double bells and extra large spike; the finest of the double dark blues.

Bouquet Tendre—Flowers of fine size, semi-double, firm and compact; color carmine-rose.

Grootvorst—Compact truss; large and very double bells of blush-white, with a touch of lilac-rose at center.

Goethe—Rosy-salmon with pinkish feather, fine bells and large truss, extra fine, the best of this color and very early.

Noble par Merite—Fine, deep rose, large bells and extra good spike; one of the finest rose pinks; very early.

Mignon of Driifhout—A fine semi-double sort, bearing beautiful trusses of light blue.

— We can honestly say that the above list of Double Hyacinths is composed of some of the best known and most desirable sorts grown. We offer them in good, solid, sound bulbs at 10c each.

SPECIAL OFFER—As a special inducement to our customers, we offer any 12 Double Hyacinths, selected by the purchaser, from above list, for only \$1.00. Sent by mail postage paid.

Or we will send for \$1.00 the entire list of 14 varieties, by express, the purchaser paying express charges. This is a splendid offer.

Unnamed or Mixed Double Hyacinths.

In Separate Colors.

It must not be understood that the Hyacinths offered below are poor bulbs, because offered at a low price. They are just what is wanted for bedding, massing and forcing, and where a grand display is wanted at a low figure. These bulbs are the product of one of the best growers in Holland, and are good size, solid and will produce splendid flowers. We offer them in the following separate colors: (Each color may embrace several shades of flowers).

Very Choice Single Named Hyacinths

Price, your selection, 10 cents each.

SINGLE HYACINTHS are, by some, held in less estimation than double ones; but on a closer acquaintance with their fine qualities, they will be found more deserving of cultivation. They are desirable for their early flowering, especially in pots or glasses. We have selected with great care this fine list of choice varieties of Single Hyacinths and have listed such as are of the very finest, producing large, full trusses, good bells, and of excellent shades of color.

Paix de la Europe—A magnificent sort with gigantic drooping bells of the purest white. This is a splendid new variety for pot culture or glasses.

Lord Macaulay—This is said by all who have seen it to be one of the best rich red Hyacinths yet offered. The florets are extra large, spike solid and compact, and the fragrance exquisite.

King of the Blues—Rich, dark blue, the finest of the deep blues; extra large, well furnished, broad spike with large bells: erect and extra fine for pots.

Gigantea—Thick spikes and large bells of a beautiful flesh color. One of the grandest sorts.

La Grandesse—This is one of the finest pure white; grand compact spike well furnished with very large bells.

Marie—Deep purple blue, with light blue stripe; extra good, compact and large truss; a splendid variety for pots.

Gertrude—Fine red; large compact truss; a splendid variety for bedding, as it stands very erect; also first-class for forcing.

Baron von Thuyll—Pure white, very large, compact spike. Very fine for early forcing, for which this variety is used in enormous quantities.

Grand Maitre—A tall grower, with huge, thick trusses of the loveliest, clear, porcelain-blue; flowers of the most perfect shape.

Robert Steiger—Very fine, large, compact spike of bright crimson-red flowers; should be in every collection.

Pieneman—A magnificent sort, with enormous sky-blue bells arranged in loose, graceful spikes of great size.

La Peyrouse—Light blue. Fine for beds and forcing. Very large, compact spike, and large bells. A grand variety.

Norma—Very early. Extra long, large bells; a most popular variety of rich rose color.

La Citroniere—Lemon yellow, a good late bloomer; one of the best of its color.

It would be exceedingly difficult to find a better selection of Single Named Hyacinths than the above. The varieties are of the very best, well known and thoroughly tested. We offer them at the moderate price of 10 cents each.

SPECIAL OFFER—With the idea of securing larger orders we make the following very liberal offer: For \$1.00 we will send any twelve Hyacinths that you may select from the above list, postage paid; or we will send by express the entire list of fourteen fine Single Named Hyacinths for \$1.00, purchaser paying express charges. Unnamed or Mixed Single Hyacinths

In Separate Colors.

You can do no better if you want a fine display for a small amount of money than to order a goodly lot of the following splendid bulbs. We offer these fine mixed Single Hyacinths, in separate colors, as follows:

PURE WHITE, BLUSH WHITE, ROSE or PINK,
RED, LIGHT BLUE, DARK BLUE and YELLOW.

Price, 5 cents each; 50 cents per dozen, by mail, postpaid.

SPECIAL OFFER.

For \$1.00 we will send you, postage paid, TWENTY Single and Double Hyacinths, all colors mixed (Single and Double varieties separate, but not the colors), the best mixture of sound, well matured Hyacinths, and full range of colors. For 50 cents we will send half the amount.

Two Vases of Roman Hyacinths.

ALLIUM NEAPOLITANUM.

A very pretty Winter blooming bulb. Its flower stems are twenty inches high, supporting a large cluster of delicate white flowers, which keep perfect many weeks. Plant three to six bulbs in a five inch pot, and you will have a beautiful object for fully a month in Winter. Nothing will give you more pleasure for so small an outlay. Large bulbs sure to bloom. Price, 3 cents each; two for 5 cents; five for 10 cents.

SPARAXIAS.

These differ from the Ixias in their dwarf habit, time of flowering and brilliancy of coloring, ranging through the various shades of crimson, scarlet and white, mottled, striped and splashed in every conceivable manner. Cultivate as Ixias. Price, 3 cents each; two for 5 cents; 25 cents per dozen.

GRAPE HYACINTH.

This charming little gem should be found in every garden in abundance. It has been termed the "Blue Lily of the Valley," and when planted in a mass with that sweet flower it does resemble it to some extent, and forms a most fascinating combination. It grows about the same height and blooms about the same time each Spring. It increases rapidly, and when once planted a mass of beautiful blossoms, which will increase each year, is insured for a lifetime. But for Winter blooming in pots it is of the greatest value. Plant five or six bulbs in a five inch pot and you will have as lovely a pot of bloom as you can imagine. Words fail to do it justice. Flower stems grow a foot in height, bearing a dense spike of sky blue bells tipped with white.

Blue—Price, 3 cents each; twelve for 25 cents.

White—Price, 3 cents each; ten for 25 cents.

Grape Hyacinth.

Roman Hyacinths.

WE WISH to call special attention to these beautiful white Roman Hyacinths, which are so valuable for early Winter blooming. They are among the few flowers which can be had as early as Christmas and New Years. Three can be planted in a four-inch pot, which, when in bloom, forms a mass of waxy bells of unrivalled beauty and fragrance. Each bulb throws up several flower spikes. Don't fail to plant a quantity of them.

Single White—The most popular of all. Every window should have several pots of these. Exquisite bells, white as the driven snow, and pleasantly fragrant. Never fails to bloom. Price, 5 cents each; 50 cents per dozen.

Dutch Roman, or Miniature Dutch Hyacinths.

Owing to the better blooming qualities of these Dutch Romans (so-called) we offer them to our customers. They bloom later than French Romans.

Single Blue—Blue bells; about ten days later than the white, with which it forms a fine contrast. A great bloomer. Price, 4 cents each; 35 cents per dozen.

Single Pink—Fine flowers of beautiful shades of pink. An exquisitely delicate mass of bloom. Price, 4 cents each; 35 cents per dozen.

Summer Flowering Hyacinths.

Hyacinthus Candicans—This is unlike our Spring blooming Hyacinths. Its leaves are deep green, fleshy, resembling some of the Yuccas. The flowers are white, in handsome pendulous bells arranged on pyramidal spikes, often reaching the height of five feet or more in strong plants. A strong bulb will give from two to three flower spikes, and these produce from thirty to fifty flowers. The plants come into bloom in July and bloom continuously until October. Price, 10 cents each; three for 25 cents.

Scilla Siberica or Star Hyacinth—The cream of nearly all hardy Spring bulbs, producing in profusion masses of exquisite rich blue flowers almost before the snow has disappeared. If grown in masses the flowers fairly carpet the ground; and if grown with Snowdrops and Crocus, for contrast, the effect is magnificent. They should be largely planted as undergrowth in Hyacinth beds, etc. Grown in pots they may be had in bloom from Christmas to April, if brought in succession. Price, 3 cents each; 30 cents per dozen.

Scilla Campanulata—Blue. Beautiful spikes of Hyacinth shaped flowers. A fine sort for cutting and for Winter blooming. Price, 3 cents each; 30 cents per dozen.

Feather or Cockade Hyacinths.

FEATHER OR COCKADE HYACINTHS.

Of this elegant Hyacinth the spike of bloom resembles a feathery plume, and is of a fine blue color. The bloom first appears as a tassel about an inch or two long, of a rich blue color, but as it expands is marked with pink, and at the end of two months is developed into a beautiful plume from six to ten inches in length, of exquisite coloring—pink, violet and blue. Desirable for both house and garden. The bulbs rapidly increase and are perfectly hardy. We have secured a fine supply this season. Price, 3 cents each; six for 15 cents; twelve for 25 cents.

CHIONDOXIA LUCILLIAE.**Glory of the Snow.**

One of the most lovely hardy flowering Spring bulbous plants ever introduced, producing lovely azure-blue flowers, with pure white centers. It is one of the earliest of all flowers, blooming before the Crocus and sure to be more than satisfactory. Price, 3 cents each; two for 5 cents; 35 cents per dozen.

Tulips.

TULIPS are such universal favorites that it is scarcely necessary to expatiate upon their merits here. Their ease of culture, combined with beauty of form and gorgeous coloring, renders them the most popular bulbs grown for Spring bedding, and for Winter flowering in the greenhouse and window garden they are incomparable. The Tulip is extremely hardy and of easy culture, flowering as freely in the shade as they will in the sunshine, and producing as fine flowers in a confined town garden as in a more favored place. Double and Single Tulips, when associated together and planted in front of shrubs, maintain a longer display than if either are separately planted.

Choicest Single Tulips.

Price, 4 cts. each; 40 cts. per dozen.

La Reine—(The Queen). Beautiful clear white. Best white for culture.

Double, Single and Parrot Tulips.

Peacock, or Sun's Eye Tulip.

NEW DARWIN TULIPS.

This brilliant new race of Tulips, of Flemish origin, belongs to the late or May flowering section, and when planted with the early sorts, greatly lengthens the Tulip season. Darwin Tulips are extensively grown for bedding or massing. The flowers are very large. Price, 5 cents each.

SHOW TULIPS.

Single Bizarres—Yellow ground, with crimson-red or white markings. Price, 5 cents each.

Single Byblémens—White ground, with purple-lilac or black markings. Price, 5 cents each.

PARROT TULIPS.

A very distinct species, producing brilliantly colored flowers of great size and grotesque shape. Their flowers are larger than the other kinds, and the colors striking and beautiful. Some will be clear yellow, others deep crimson, and others striped with crimson. They are very gay and effective in mixed borders, and flowering somewhat late, form a fine succession to the early flowering variety. All colors mixed, 4 cents each. 40 cents per dozen.

MIXED TULIPS.

We have a large stock of unnamed Tulips for bedding, which we price so low as to make a large mass of these showy flowers a matter of trifling expense. They are excellent bulbs, and will bear handsome blooms.

Superfine Mixture Single Tulips—In fifty choicest kinds, splendid flowers. Price, 35 cents per dozen; \$2.00 per hundred.

Superfine Mixture Double Tulips—In fifty choicest kinds, splendid flowers. Price, 35 cents per dozen; \$2.00 per hundred.

Polyanthus Narcissus.

TOTUS ALBUS.

(Finest of all for Pot Culture.)

Paper White—This beautiful pure white sort is several weeks earlier than the ordinary Polyanthus, and can be had in bloom in a short time. Just the thing for Christmas. Large clusters of pure white flowers, which remain perfect for several weeks. Plant early. Extra size bulbs. Price, 4 cents each; 40 cents per dozen.

Narcissus Jonquilla, or Jonquils.

Much prized for their charming, golden and deliciously sweet-scented flowers, perfectly hardy, and flowering very early in the Spring; they are admirably adapted for Winter forcing.

Single Jonquil—The well-known favorite, delicately scented and beautiful for forcing. Rich yellow. Very fragrant. Price, 2 for 5 cents; 20 cents per dozen.

Double Jonquil—Heads of small but very double deep golden-yellow flowers, powerfully scented and good for forcing. Price, 6 cents each; 60 cents per dozen.

Campernelle—Large, six lobed yellow flowers, four to six on a stem, fine for forcing, and the one generally preferred by florists. Price, 3 for 10 cents; 25 cents per dozen.

CHINESE SACRED NARCISSUS.

Oriental Lily, or "Joss Flower."—The most satisfactory of all Winter blooming bulbs. No home should be without one. Nothing is easier cared for or gives as great an abundance of deliciously-scented bloom. Fill a bowl or similar vessel with pebbles, in which place the bulb, setting it about one-half its depth, so that it will be held firmly, then fill with water to the top of the pebbles, and place in a warm sunny window. The bulb will at once commence rapid growth, and bloom in four or five weeks. The bulbs are so large and have so much vitality they can be kept perfectly dry all Winter, and be planted any time when flowers are desired. Extra size bulbs, 15c; 4 for 50c.

NARCISSUS.

THESE charming, graceful flowers are prime favorites for early blooming in the garden, and are largely forced by florists for Winter flowers. They are bright and hardy (except the Polyanthus sorts), and nearly all are most deliciously fragrant; no flower better deserves its popularity. Of easy culture, they are equally satisfactory for potting and for the open bed and borders, while their rush-like, glaucous foliage and white and yellow flowers are very much admired.

The flowers are of the purest buttercup yellow. When grown in a partially shaded situation the flowers remain open all the time. Properly treated, the plant will flower in six weeks from the time the bulbs are planted. Price, 5 cents each; 50 cents per dozen.

CROCUSES.

The Crocus is one of the first flowers of Spring, and one of the best for blooming in the house during the Winter. The principal months for planting are October, November and December, in ordinary rich garden soil, placing the bulbs about two inches deep. To secure a succession of blooms in pots commence early in the first named month with six or eight bulbs in each well-drained pot, using the same rich soil and planting about an inch deep. They bloom splendidly when planted on the lawn among the grass. They lift their bright heads up through the sod very early, and give the lawn a charming aspect. The sorts we offer are especially strong and fine.

IXIAS.

The Ixias produce their beautiful flowers in spikes, and are of the most dazzling and brilliant colors and sure to attract great attention. It is only a few years that they have been grown in this country to any extent, but in that time, like the Freesias, they have become very popular. For pot culture in the house they give great satisfaction, being of easy culture and free bloomers. Plant in October (six to eight in a five inch pot) in sandy loam, one inch deep, pressing the soil firmly over the bulbs. Put away in a cool cellar or frame and cover with ashes. Water sparingly until the flower spikes appear. They may then be brought to the light and given plenty of air, sunshine and water. Finest new English sorts in variety. Price, 3 cents each; two for 5 cents; 15 cents per dozen.

Refracta Alba.

THE charming and novel blossoms of this popular flowering bulb are well shown in our illustration. For Winter blooming in the house it is probably today the most popular of all. It is sure to succeed and flower elegantly for any one in any situation. The splendid blossoms are borne in great profusion; color purest white, the lower petals touched with yellow. There are six to eight flowers on a stem nine inches high, which are particularly valuable for cutting, remaining in good condition for two weeks. Four to six bulbs can be planted in a five-inch pot, box or pan and grown like other bulbs, for the culture of which see page 2. By planting at intervals from September to November, a succession of flowers can be had throughout the Winter. Pure, pearly white, deliciously fragrant, and a remarkable profusion of bloom characterize this charming and celebrated Easter Lily. The flowers are fully six inches in length, purest white, and of the most delicious fragrance. Price, fine bulbs, 15 cents each; four for 50 cents.

Golden-Rayed Queen of Lilies.

The grandest Lily grown, and a never-failing delight. We take pleasure in showing it to people who have never seen it. It seldom fails to create a sensation. The perfume is exquisite—light, yet penetrating. Magnificent by daylight, but by moonlight a well grown plant, carrying five or more blooms, is simply indescribably beautiful. Also known as "Gold Banded Lily from Japan." Price, 20 cents each. Ready in November.

Madonna Lily.

LILIUM CANDIDUM.

The Madonna, or Annunciation Lily—This Lily is the emblem of purity. The deep lemon anthers contrast beautifully with the wax-like petals. The fragrance is delicious and never oppressive. Spotted Calla Lily.

Calla Richardia, Spotted Calla.

The Richardia Alba, or Spotted Calla, is a plant of magnificent appearance. The leaves are of the richest green, spotted with pure white; the flowers are white, with a rich chocolate throat. It can either be grown in a pot, planted in a border, or in a vase or rustic stand, the latter being a very effective way of showing its beauty. Price, 10 cents each; large bulbs, 20 cents.

The Beautiful Lemon Lily of Siberia. (*Hemerocallis Flava*.)

One of the most beautiful and desirable Lilies in existence. You plant it once and you have it for all time. Few plants present a more striking appearance on the lawn or border than a large clump of this clear lemon-colored lily, which is produced in the greatest profusion, lasting in flower for a long time. It is perfectly hardy, requiring not the slightest protection and no care, after being once started. We would advise our customers to plant this Lily, as it will be a source of everlasting enjoyment. Price, 20 cents each.

Hyacinthus Candicans.

This is not unlike our Spring-blooming Hyacinths. Its leaves are deep green, fleshy, resembling some of the Yuccas. The flowers are white, in handsome, pendulous bells, arranged on pyramidal spikes, often reaching to the height of three feet or more in strong plants. A strong bulb will give from two to three flower spikes, and these produce from thirty to fifty flowers. The plants come into bloom in July, and bloom continuously until October. It is hardy. Price, 10 cents each; 3 for 25 cents.

The Mammoth Black Calla, The Great Dragon Arum.

This plant has the honor of producing the largest flower of any plant that is hardy in this country. They are simply enormous. The leaf stems and flower stalk are all spotted with purple, like an adder, and upon the top of the latter opens a flower of gigantic size and curious color. On the outside it is of a light green color, while the inside is of a deep red-purple, glistening beautifully in the sun with a satin sheen. The spadix in the center of the flower is of a glossy, purple-black color. As will be seen from the cut, the plant resembles a palm in general appearance. Price, good bulbs, 20c each; extra large bulbs, 40c each; three for \$1.00.

Jacobeon Lily, *Amaryllis Formossima*.

This grand bulb will flower either Summer or Winter. Keep dry during Summer for Winter blooming, and reverse the order for Summer bedding. Price, 15 cents each.

AMARYLLIS JOHNSONII.

One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late Winter or early Spring, bearing large flowers of intense crimson with a delicate white feather in each petal. 40cts.

The Dragon Arum.

The Blue Lily of Africa,

New Ever-Blooming Dwarf Calla,

THE GEM

Having given it a fair trial with the ordinary variety known as the Calla Lily, the only objection to the old variety is that it sometimes grows tall and scraggy; but the "Gem" is of strong and dwarf habit. The foliage is of a lustrous dark green, is produced in great abundance. Its flowers are produced in the greatest profusion being literally an ever-bloomer, it will bloom freely all Summer out in the open ground: in September it can be lifted and potted and will continue blooming all Winter. Price, 15 cents each; large plants, 25 cents.

Dwarf Calla, The Gem.

Cyclamen, or Persian Violet.

Cyclamen, or Persian Violet--New Improved.

There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blooms freely, and remains a long time in flower. The soil should be equal parts of turfy loam, leaf mold and silver sand. Put in pots three times the diameter of the bulb in October. Keep them in a cool, light place, watering lightly until growth begins. Then water freely and give plenty of light and air. On the approach of cold weather remove to a warmer situation, the parlor or greenhouse, but keep them near the light. The whole secret of growing Cyclamens to perfection is light, air and low temperature. Price, 15 cents each; large strong bulbs, 25 cents each.

The Beautiful Blue Lily of Africa.

AGAPANTHUS UMBELLATUS.

This is a splendid ornamental plant, bearing large clusters of bright blue flowers on long flower stalks and lasting a long time in bloom. There is no finer plant than this for outdoor decoration, planted in large pots or tubs on the lawn, terrace or piazza. It does well in the house or greenhouse in Winter, requiring slight protection. It is a rapid grower and increases in size and beauty every year. The chief points in its cultivation is to divide the plant before the pots or tubs become overcrowded with roots. With the ordinary kind of care it is a plant that will last forever. Nice plants, 15 cents each; strong plants that will bloom in a short time, 25 cents.

Yellow Rambler.

A PAGE OF New Hardy Climbing Roses.

THE NEW HARDY YELLOW RAMBLER (Algaia).

This new Hardy Climber produces its flowers in the same manner as the popular Crimson Rambler—that is, in large pyramidal-shaped trusses, frequently being from fifty to one hundred flowers in a truss. In color it is a decided yellow, with moderate-sized cup-shaped nearly full flowers, which are sweetly scented. Its habit of growth is very strong, frequently making shoots of eight to ten feet in one season. Price, 10 cents; strong, two-year-old plants, 25 cents.

The Beautiful New White Climber, WHITE RAMBLER (Thalia).

Of German origin and in habit of growth, foliage, manner of blooming, form of flowers and hardiness, it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented—which the flowers of Crimson Rambler are not. The flowers "remain on the bush from three to five weeks; beautiful to behold." Price, 10 cents each; strong, two-year-old plants, 25 cents each.

Charming New Hardy Climbing Rose, PINK RAMBLER.

Originated by the same gentleman who produced White Rambler, Mr. Peter Lambert, and is of the same blood. What is said of White Rambler applies equally to this, except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. "The numerous yellow stamens lend an additional charm to the flower. In hardiness, freedom of bloom form and color of flower and vigorous climbing habit, this variety is fully the equal of Crimson Rambler." Price, 10 cents each; large, two-year-old plants, 25 cents each.

Manda's Wichuriana Hybrids.

These charming Roses are of the same creeping habit as Rosa Wichuriana, trailing over the ground or creeping about the trunks of trees and pillars with delightful effect. They are beautiful for their foliage alone, which is finely cut, thick and leathery, brilliant deep glossy-green, keeping in perfection until midwinter. The flowers are exquisitely beautiful, deliciously fragrant.

Manda's Triumph—Very large, double flowers, fully two inches across, pure white, finely formed and sweetly fragrant, borne in large clusters.

Pink Roamer—This, in its flower, possesses the character-

istics of the Sweet Briar. Its beautiful flowers are single, very large brilliant rich pink with prominent orange-red stamens, and delightfully sweet scented.

South Orange Perfection—A charming little plant covered with the greatest profusion of perfectly formed, double flowers; soft blush-pink, changing to white.

Universal Favorite—The blooms are very abundant, of large size, double, of a beautiful rosy-pink, like that of Bridesmaid, and delightfully fragrant. It is a splendid Rose for out door decoration.

Price, 10 cents each; a set of the four for 30 cents; strong, two-year-old plants, set of four for \$1.00.

A Set of Four Wonderful

New Climbing Roses.

Set of four for 30 cents. Strong, two-year-old plants, 30 cents each. The set of four in strong, two-year-old plants, for \$1.00.

The New Climbing Rose, Empress of China—This is a new Climbing Rose of the greatest excellence. It was brought to this country by a gentleman from Cuba, who says of it that it commences to bloom in May, and is loaded with its elegant blooms until December. Think of it! There is no other Rose like it that will bloom for so long a time. This has been the great objection to Climbing Roses, that they bloom once and then are done. But here we have a Rose that blooms continuously for over seven months of the year. It is simply wonderful. When it first opens, the flowers are a beautiful red, but soon turn to a lovely light pink, and it blooms so profusely as to almost hide the plant. It is perfectly hardy, and is a vigorous grower. Don't fail to try this beautiful Rose, as it will please you. Price, 10 cents each.

The Beautiful Hardy Climbing Mary Washington Rose—This Rose, so widely advertised, is claimed by the introducer to have originated in the garden of George Washington, at Mt. Vernon, over one hundred years ago. It is an ever-blooming Climbing Rose of vigorous and rapid growth, and makes a profusion of fine buds, which are borne in fine clusters. The flowers resemble the Polyantha Rose, and are of medium size, pure white, perfectly double, very sweet, and borne in endless numbers all Summer. Strong plants, guaranteed genuine. 10 cents each.

The Great New Climbing Rose, Crimson Rambler—This superb novelty is of the Polyantha class; originally received from Japan, and introduced into England in the fall of 1893. Flowers are produced in great pyramidal panicles or trusses, carrying from 30 to 40 blooms, the individual flowers measuring about 1 to 1½ inches in diameter, and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired; foliage bright green and glossy, and contrasts finely with the bright crimson of the flowers. It is exceedingly hardy. We can recommend this novelty in the strongest manner as being a new Rose of great importance and value. Price, 10 cents each.

The Fine New Climber, Climbing White Pet—This is an unusually vigorous grower and a wonderfully profuse bloomer. It is remarkable for the rapidity of its growth and freedom of bloom. The flowers are very double and full, of medium size, pure snowy-white, and borne in large clusters continuously throughout the whole season. Price, 10 cents each.

White Rambler.

HARDY EVER BLOOMING ROSES

Our "None Such" Collection of 12 Hardy Ever-Blooming Roses for 50c.

The flowers are very deep, rich and full, excellent substance, very sweet. Remarkably hardy, frequently standing the Winters in open ground without protection, blooming through the hottest part of the Summer. Price, 10c each.

Mademoiselle Franciska Kruger—The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep copper-yellow it stands unique and distinct from all others. The flower when open is of good size and very symmetrical. One of the finest Roses to plant in masses and clumps. Price, 10c each.

Madame Schwaller—New. Blooms in large clusters. Large, globular flowers; color transparent salmon-rose; very delicate and tender; petals finely edged with violet-carmine; highly perfumed. Very fine. Price, 10 cents each.

We have combined in this collection only such kinds as bloom freely, and that will stand zero weather. No change will be made in the collection. It must be ordered complete.

Meteor—A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. The best rich, red Rose for the garden ever introduced. Price, 10 cents each.

Marie Lambert, or White Hermosa—Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. Price, 10 cents each.

Papa Gontier—Large, finely formed buds and flowers, fragrant. This variety will be much sought after on account of its beautiful and full buds for wearing and vases. The flowers are large and long, with thick, broad petals of a dark carmine-crimson, changing to pale rose. A bunch of flowers, when fully opened, is almost equal to a bunch of Hybrids. Price, 10c.

Souv. de la Malmaison—A noble Rose. The blooms are extremely large, quartered and doubled to the center; rich, creamy-flesh, changing to lovely fawn, with rose center, and exceedingly sweet. Its great beauty in the Fall makes it the most valuable of all Roses at that season. A flower that is universally popular and will always remain so. Price, 10c each.

Queen's Scarlet—A very desirable and satisfactory Rose; showy and attractive, a constant and profuse bloomer. The flowers are rich, velvety-scarlet, very brilliant and striking; very large and full; hardy and of vigorous growth. Price, 10c each.

Marie Guillot—This beautiful Tea Rose continues in popular favor, and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10c each.

Marie Van Houtte—Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson. Occasionally the whole flower will be suffused with light pink.

It grows vigorously, blooms freely and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose. Price, 15 cents each.

Clothilde Soupert—The color is a French white, deepening to a rosy-blush in the center, exceeding in distinctness of shadings the well known Malmaison. Its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom, even the smallest plants being literally covered with flowers. The form and substance of the flowers are so perfect that the hottest weather does not cause a deterioration of either. Price, 10 cents.

Mrs. DeGraw—From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich glossy-pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses; it is certain to be unequalled for the garden or cemetery. A royal Rose. Price, 15 cents each.

The White Hermosa.

The Grand Old Rose,

SOUVENIR DE LA MALMAISON.

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry Summers. Exquisitely fragrant. A noble Rose. Price, 10 cents each; large, two-year-old plants, 30 cents each.

The Charming New Yellow Rose,

"MOSELLA."

This splendid novelty we have just secured from Germany; its origin is almost identical with that of the original Soupert, a cross of the Polyantha and the beautiful Tea Rose, Madame Falcot. It blooms in profuse clusters of three to five flowers, which are very double, ball-shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground extending to the middle of the petals. The plant is dwarf, bushy and free blooming. Offered for the first time this year. It is sure to be a popular companion to the original Clothide Soupert. Price, 10 cents each; two-year-old plants, 30 cents each.

New Crimson Tea Rose,

Christine de Noue.

This beautiful new red Tea is a very charming Rose, and promises to be one of the best of recent introduction. It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized, graceful bush, with bright deep foliage; a constant and very free bloomer; the flowers are well-borne upon strong stems, and are unusually large and handsome; the buds are long and finely pointed, and the color a clear, rich maroon, or deep purplish-red, passing to lake, center sometimes streaked with silvery-white; the petals are finely imbricated, and the flowers are deliciously sweet. It is highly recommended as a valuable, and in every way desirable Rose for general planting. Price, 10 cents each; large two-year-old plants, 30 cents each.

NEW ROSE

The Gem, or The Fair Unknown.

This Rose is identical with Marie Van Houtte, except that it is claimed to be twice the size. We have seen enough to know that it will do to talk about and praise. Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson. Occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms freely and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose. Price, 10c each; large, two-year-old plants, 25c each.

The White and Yellow Hermosa Roses.

The White Hermosa, Marie Lambert—This is a lovely white Rose, a pure Tea, but a foreign seedling; the freest flowering white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every good quality of a pot Rose. We counted on one plant 143 buds and flowers in a single day, and the plant was only 9 months old. Try it. Price, 10c each; large plants, 25c each.

Yellow Hermosa Rose, Coquette de Lyon—No Rose like it for freedom of bloom. The plant is a fine grower, and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, but very attractive. Called the Yellow Hermosa from its free-flowering character. We do not know of any Rose that will give the satisfaction that this variety will, and we heartily recommend it. Price, 10 cents each; large plants, 25 cents each.

Christine de Noue.

The Meteor.

The Richest Dark-Red Rose,

THE METEOR.

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10 cents each; large, two-year-old plants, 25 cents each.

The Beautiful Tulip Rose,

Madame de Watteville.

The color is a remarkable shade of creamy-yellow, richly colored with rosy-blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Sure to please. Price, 10 cents each; two-year-old plants, 25 cents each.

Two Unequaled Roses for Winter Blooming,

The Bride and Bridesmaid.

10 cents each; large two-year-old plants, the two for 40 cents.

White Tea Rose, The Bride—This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

New Tea Rose, Bridesmaid—Here we have a new Rose, a sport from that old stand-by, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, 20 cents each; large two-year-old plants, 25 cents.

The Beautiful New Ever-Blooming

MAMAN COCHET

It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. You It is of the largest size, and, as you will notice, the flower is built up or rounded, and very double. The color is a deep rose-pink, the inner side of the petals being a silver-rose, shaded and touched with golden-yellow.

The Queen of Roses---CRIMSON BEDDER.

This is without doubt the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of fiery-scarlet, a color seldom seen in Roses, indeed a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. Price, 10 cents each; large two-year-old plants, 30 cents each.

New Tea Rose—GOLDEN GATE.

This magnificent Rose is a strong, healthy grower, excellent for both bedding and house culture. Produces a profusion of long, pointed buds, opening to very large double Roses of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose. We heartily recommend it. Price, 10 cents each; large plants, 30 cents each.

A Choice List of Tea and Ever-Blooming Roses

✿ ✿ Suitable for Fall Planting or Winter Flowering. ✿ ✿

In northern latitudes it will be necessary to give these Roses some protection, such as a covering of ever-green boughs or leaves, straw, etc. It is not the intense cold that kills Roses so much as the frequent freezing and thawing during Winter. We would recommend the two-year size for Fall planting.

A Quintet of the Latest European Geranium Novelties.

Madame Bruant.

The Premier Set of Double Geraniums. Especially Grown for Winter Flowering.

J. J. Harrison—Of all the new Geraniums introduced the last five years, this is the Premier variety. The enormous truss, the size and beauty of the individual flower, its glowing color, the sturdy habit and magnificent growth, make it rank first of all in bedding Geraniums. *M. Bruant*, the grower, has given us a great many good varieties, and this variety far excels them all. Its brilliant scarlet flowers make it a noticeable feature in any collection. Price, 10 cents each.

Colossus—Floret quite circular, semi-double; two and a half inches in diameter; truss also fine. The color is very beautiful, a rich shade of rosy-crimson. Very free in bloom. One of the very largest and finest among the double reds. Price, 10 cents each.

Emile de Girardin—Of a deep, soft rose, rather than pink, but fresh and bright; the flowers are perfect in form and borne well and clear above the foliage. It stands the sun perfectly, and is, in our opinion, the finest double variety of any color for massing, when a delicate and artistic effect is desired. Price, 10 cents each.

Contraste—Each year Geraniums grow more beautiful; among the most beautiful of new double Geraniums is *Contraste*. The flowers and trusses are very large. Lower petals orange and carmine, upper petals clear orange, making a striking contrast of colors that is beautiful. Price, 10 cents each.

Theocrite—A distinct new Geranium of the large-flowered *Bruant* race, producing very large, semi-double flowers of the most beautiful and unique form. Its colorings are simply without an equal, a soft, tender rose with violet shadings, entirely distinct from any other variety in coloring. Price, 10 cents each.

Mme. A. Chevreliere—A queen among double whites; the floret is of the beautiful irregular form found in the *Bruant* type, very large snow white and a good grower. Flowers well above the foliage, and of perfect habit. Price, 10c each.

SPECIAL OFFER—The Premier set of double Geraniums for 40 cents.

Price, 15 Cents Each, or the Set of Five for 50 Cents.

Md. Bruant, the Novelty of the Year—A grand variety, wholly distinct from any other in cultivation. White veined with carmine-lake, florets regularly bordered with bright solferino, the arrangement of color is exquisite, often intermingling and producing a striped effect; the trusses are large and beautifully formed; the plant is a good healthy grower and very free flowering. Everything considered, this is the most distinct and wonderfully colored variety ever sent out, and certainly the finest plant novelty of the year. Price, 15 cents each.

Md. Jaulin—Without question the finest new semi-double Geranium offered in many years. This is an entirely distinct color in the *Bruant* or bedding type. Very large florets compose a truss of grand size; center of flower very delicate pink, bordered with pure white. For freshness and beauty this variety is unrivaled by any bedding sort, and is equally as valuable for pot culture. Price, 15 cents each.

Fleur Poitevine—Another very distinct colored variety. Large single flowers; color brilliant rosy-carmine, marbled and striped with pure white, producing an aureole of deep orange-carmine at the center; the plant is dwarf, but robust and wonderfully free flowering. Price, 15 cents each.

J. Ricaud—A very fine, free-flowering, double variety with enormous sized trusses on strong footstalks; flowers purplish-crimson of a very intense shade, center very distinctly marked white, shading beautifully into the other color. Should be in every collection. Price, 15 cents each.

J. Sallier—A vigorous growing and remarkably free flowering variety. Trusses very large and of perfect form, composed of single flowers entirely distinct from any existing variety; edges of the petals carmine-lake; the center is washed in tints of rose and bluish heliotrope color, the upper petals are veined carmine and marked with orange at the base. This is one of the most distinct and valuable Geraniums of the year and we recommend it highly. Price, 15 cents each.

The Premier Set of Single Geraniums. Especially Grown for Winter Flowering.

Madonna—A magnificent bedding variety; trusses are of extraordinary size, of almost pansy form, the color is a soft light pink, a beautiful and distinct shade. Lillian B. Bird.

Mrs. J. G. Whilldin—A handsome yellow variety of light tint, large size and splendid form. A magnificent addition to the scarce, very early, large flowering varieties.

Miss Gladys Spaulding—One of the best whites extant; a grand spherical Chinese. An exceedingly well built flower, a charming variety with perfect habit and unusually stiff stem.

Mrs. Perrin—Mrs. Perrin, offered to the public for the first time, is the nearest approach to the true pink so long desired. It has slender, stiff stems; a short neck; ornamental foliage. The flower is of globular form, incurved, full, and with a finish as soft as satin. Color rose-pink within, glistening pink without.

Mme. F. Bergmann—The finest of all the early whites; very large and full, and of the purest white, with creamy center; a strong, sturdy habit; fine foliage. The most popular white variety with florists for early forcing.

Mrs. Jerome Jones—It is almost of globular form, of the finest silky finish, and destined to become a popular sort for cutting. The outer petals are a delicate lavender, forming a decided band of color, the inner petals are clear lemon.

Pink Ivory, (Miss Dalskov)—An immense incurved variety. Clear bright pink, fine rounded form of great depth, with deep strong foliage. The grandest of the extra early clear pink varieties.

Puritan—This is undoubtedly one of the choicest as well as largest Chrysanthemums grown—as large as Mrs. F. Thompson; a beautiful silver-white, turning to pure white.

President Harrison—An immense cupped flower; outside petals salmon-red; center deep Indian red. Enormous, free and distinct.

Violet Rose—A grand variety. Exceedingly free, of perfect form. A beauty combination of violet and rose in color.

The Queen—A grand double white of fine form and great substance, very rounded in form, incurving and full. Attracted a great deal of attention at Madison Square, where it was awarded first premium for best white.

Vivian Morel—A mammoth variety, with long, loosely arranged petals of a most beautiful shade of pink; a strong, sturdy grower, with deep green foliage; contour very distinct from any other in common.

Niveus—A good snow-white variety. Center irregularly incurving, with outer petals reflexing nearly to the stem. Constitution robust, foliage large and abundant, while the keeping qualities of the flowers are unsurpassed.

E. G. Hill—Immense bloom of brightest golden yellow; full and very double; lower petals sometimes deeply shaded bright carmine.

Gloriosum—Light lemon color, with immense flowers, having narrow petals gracefully curved and twisted; quite early and one of the best.

Golden Wedding—This is undoubtedly the grandest golden-yellow variety ever introduced. It is a remarkably vigorous grower and has such strength of stem that it carries its great globular flowers erect, giving it a bold majestic appearance.

Ivory—Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its dahlia-like petals and absolute purity of color.

Joseph H. White—A very large white variety, with upright petals, forming a nicely rounded flower of great substance. Strong grower with stiff stems.

L. Canning—A most exquisite white, absolutely pure. The flower is quite regular in form, very large and flat, the length of petals graduating to the center. A little larger than Puritan, to which it is a grand successor. Reminds one of a large satin rosette.

Louis Boehmer—(Pink Ostrich Plume.) The "Louis Boehmer" has the same wonderful hair-like growth or excrescence that appeared for the first time in the white variety, "Mrs. Alpheus Hardy," but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals.

Lillian B. Bird—This beautiful and unique variety is of an exquisite shrimp pink in color, producing flowers which often measure ten inches in diameter; large tubular petals of perfect form when fully open, being an immense half globe.

Marguerite Jeffords—A fine spherical flower of bright amber color, of most rich and pleasing shade, one of the notabilities of the year, having secured the Whilldin prize at Philadelphia.

Maude Dean—An immense pink variety; finely incurved; petals broad, shell shaped. One of the largest flowers exhibited in the Fall shows. Almost a pure shell-pink. Received silver medal at Philadelphia, and awarded certificates of merit at New York and Philadelphia.

Marion Henderson—The texture of the flower is such that we have never seen it in the least affected by damp.

Minnie Wanamaker—Pure snow-white, incurved and perfectly double, with a breadth of petal and grandeur of build that is only found in the best varieties.

Major Bonaffon—Soft, clear yellow, full in the center, 8 inches in diameter and nearly as deep. In perfect form and finish, habit dwarf, keeping qualities excellent. It is entirely distinct in color and form from Eugene Dailedouze. It was awarded a World's Fair medal with the highest recommendation from the judges; has won ten first prizes.

10 cents each; any three for 25 cents.

Armazindy—Color, snow-white, very light-
ly penciled scarlet; stem very stiff; the
flower is large and never bursts. One of the
most profuse bloomers in the whole family,
and surpassed by no variety in beauty and in
good qualities.

Attraction—Stem longer than the average,
and bearing a flower of new shade which
catches the eye at once. We think it best de-
scribed by the words rosy-scarlet.

Bridesmaid—A beautiful new sort with
thick, waxy petals, color bright clear pink,
very highly scented. The plant is an excep-
tionally free and vigorous grower, producing
fine large flowers on long stiff stems.

Fred. Dorner—A deep velvety-red, flowers
extra large, seldom less than three inches
across, constant free bloomer and vigorous
grower. The petals are beautifully shaped
and finely fringed. It is of immense size and
deep, rich color.

Goldfinch—Yellow edged pink. This va-
riety resembles William Scott in growth, and
is fully as free blooming. The color is a little
lighter shade than Buttercup, and
of medium size.

Helen Keller—Pure white with
fine scarlet stripes. This superb
variegation is evenly marked all

through the flower, which at the same time is one of the very
largest and most beautifully formed Carnations ever intro-
duced.

Mrs. Harrison—Flowers of the finest white, occasionally
a fleck of purple, of large size, two and one-half to three
inches, very full and of good substance, lasting, if well
grown, long after being cut.

Portia—Brilliant scarlet. An exceptionally bright color
in a carnation. This is not a red, but is like that rich, glow-
ing shade of scarlet so often found among Geraniums.
Growth very vigorous and strong. Foliage large, and deep
green.

Star Light—A very pretty canary yellow Carnation, a
sport from Hinze's White, similar in foliage and form of
flower; its charming yellow tint, with its short growing
habit make it very desirable.

Silver Spray—We believe this to be the finest new or old
white Carnation in cultivation. The flowers are of the
purest white, with petals of great substance, making it one
of the best.

a bright pink, growing brighter when fully expanded. The
flowers are long stemmed, exceedingly fragrant.

Mrs. McBurney—Another enormous flowered variety, of
clear salmon; bloom Camellia shaped; petals thick and
wax-like; clear salmon; very strong calyx, stem perfectly
erect. Free in bloom and one of the most distinct; a queen
among Carnations.

Eldorado—
Light, clear
yellow, pet-
als edged
with a nar-
row band of light pink. A
strong, vigorous grower,
with fine healthy foliage;
stems of good length, sup-
porting large, finely formed
flowers. The color shows
up well under artificial
light, and does not look
white, as so many yellows
do.

Daybreak—The flowers
are of largest size, very
double and full in center, the center petals are slightly
raised; the petals are thick and of heavy texture. In color
it is a beautiful pure bright flesh color.

Tidal Wave—Flowers very large and perfect in form;
color bright rosy-pink, changing to a beautiful soft pink with
a salmon shading when flowers are fully expanded. A very
healthy grower and remarkably free bloomer.

Meteor—A grand new deep crimson Carnation of the
exact shade of a perfect Jacqueminot Rose. The plant is a
strong, vigorous grower, with clean foliage, with large-
sized flowers borne on strong, erect stems. The finest deep

It continues growing and branching in this way until the vines are a solid wavy mass of the most elegant foliage and flowers. The flowers are borne in large, drooping clusters; very large, long, graceful. Price, 10 cents each.

CORAL GEM.

Lotus Pelyorensis—Coral Gem.

LOTUS PELYOORENSIS.

Coral Gem.

This charming plant is so well thought of abroad that a prominent horticultural journal color-plated it. "The Garden" says of it: "Its cylinder branching habit is most striking, and the silvery foliage even more so. Without its flowers it might almost be described as a Silvery Asparagus." But the bright coral-red flowers, measuring two inches in length, are really beautiful, greatly reminding one of the rare and beautiful Ceanothus, so difficult to grow, while this gem is of the easiest possible management. Its drooping habit also makes it useful for hanging baskets. It is nearly hardy. Price, 15 cents each; two for 25 cents.

In the house it can be trained about a window, forming a wreath of the most brilliant bloom both Summer and Winter. The flowers are from an inch to an inch and a half in length, of a most intense scarlet, shading into flame, tipped with bright golden-yellow, and are covered with a thick scarlet moss. Price, 10 cents each.

Pandanus Utilis.

Pandanus Utilis.

For majesty of form and gracefully arranged foliage, this plant is without a peer, while its vigorous constitution enables it to stand more neglect, without serious injury, than almost any other plant we know of. As an ornament for the window its glossy, dark green, serrated foliage renders it unusually attractive, while as a vase plant or single specimen in greenhouses or conservatory it can not be surpassed. It is also largely used to decorate the halls in our finest private residences and shows grandly on the lawn when grown to a sufficient size. See cut. Price, 25 cents each; large size, 50 cents each.

..Sanseveria Zealanica..

A New Decorative Plant of Great Value.

THERE is scarcely a decorative plant listed that is more striking in foliage and habit than this, and certainly none other that will stand as much downright neglect and hardship as well as this. Nothing but frost or a continual drenching with water has terrors for it. It will grow in a dark hall, a cool bedroom, or stand on the mantel in a heated sitting room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. Erect, rigid, sword-like leaves, in some old specimens reaching a length of from four to six feet. The leaves are thick and fleshy, a dark-green color, with clouded bars of white. Price, 20 cents each.

Sanseveria Zealanica.

Dracaena Indivisa.

DRACÆNA INDIVISA.

One of the most popular plants for house decoration or for center of lawn vases. As a single specimen plant for a jardiner in a hall or drawing room, it has no equal. The leaves are of several shades of green, with delicate stripings of yellow and red, which become marked as the plants grow older. It grows rapidly, is adapted to the close atmosphere of the house, and is very inexpensive. We offer two sizes of this desirable plant. Nice plants, 15 cents each.

It is also very desirable for decorating, along with other plants, when grown as specimen plants or pots. It is of the easiest culture, and will thrive with almost any kind of treatment. Price, 15 cents each.

Onychium Japonicum.

Beautiful Ferns

THESE beautiful plants are now very generally cultivated. Their great diversity and gracefulness of foliage make them much valued as plants for vases, baskets or rock work, or as specimen plants for parlor or conservatory. Keep them out of the direct sunlight, and water carefully, that the delicate roots lying near the surface may never become dry.

Adiantum Cuneatum—(Maiden Hair Fern.) A very beautiful and graceful Fern, its delicate fronds being much used for cut flower work. Price, 15 cents each.

Blechnum Occidentalis—A beautiful, strong, growy, dwarf Fern, with fronds of a light green. The young leaves have a charming pink lustre. Price, 15 cents each.

Onychium Japonicum—A very beautiful Fern, having long, graceful fronds. The wiry texture of the leaf makes it keep a long time; very useful to cut for vases, etc. Price, 15 cents.

Lastrea Aristata Variegata—This most beautiful variety has a broad band of yellowish-green running through the panicle along the course of the radius; very ornamental. Price, 15cts.

Lastrea Opaca—With dark green, triangular foliage. A splendid house Fern, and very easily managed. Price, 15 cents.

Pteris Tremula—(Shaking Fern.) The foliage of the Pteris varieties is large; very graceful. The slightest movement of the air shakes the leaves of this kind, which we recommend more than any other for house-culture, etc. It grows readily and very fast. Keep the leaves from dust and sprinkle slightly every warm day. Price, 15 cents each.

Sword Fern, Nephrolepis Exaltata—In well-grown specimens the fronds attain a length of six or seven feet, but only one to three inches wide, and like plumes arching over in every direction, in a most graceful manner. It is a very fine plant for hanging pots or baskets in the window in Winter. Our cut conveys a very poor idea of its gracefulness and beauty. Price, 15 cents each; large, fine plants, 25 cents.

New Sword Fern, Nephrolepis Cordata Compacta—In our estimation this variety is the finest of all the sword ferns; it is of free, strong growing compact habit, attaining, when fully grown, a height of about two feet. The fronds, which are of a dark green color, very rich, of upright growth, with just sufficient arch in them to make them graceful. As a fern for house culture or for window gardening, we do not know of any other variety that would give the same satisfaction and which we could recommend so highly. Price, good plants, 25 cents; strong plants, 50 cents.

The Boston Sword Fern—(Nephrolepis Exalta Bostoniensis.) A variation from the ordinary Sword Fern which originated in the vicinity of Boston, where it has been in popular favor for a number of years under the name of Boston Fern. In the vicinity of Boston no other plant is used so extensively as this graceful Nephrolepis, which differs from the ordinary fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. Price, good plants, 25 cents each; strong, large plants, 50 cents.

Selaginella Emilliana—A new, upright-growing moss, with numerous feathery stems branching from the base and forming a dense tuft. Well-grown plants attain twelve to eighteen inches in height, and of corresponding diameter. We know of no moss superior to it, and it is exceedingly appropriate for table decoration. Price, 15 cents each.

Sword Fern. (Nephrolepis Exaltata.)

FOUR BEAUTIFUL VIOLETS.

OF ALL delightful perfumes, that of Violets is the most delicate and pleasant, and places the modest little blue flowers among our greatest favorites. Violets grow and bloom during the dead of Winter with no trouble whatever, if given a cool situation, but will not succeed in a warm place. The following four sorts are the best of all the Violets, and are all distinct in color.

Hardy Double English Violet.

Is entirely hardy, perfectly double, a deep violet purple color and most deliciously fragrant. It surpasses the well known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor; this is one of its greatest merits. It is entirely free from disease of any kind, will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the Hardy Double English Violet. Price, 15 cents each.

English Hardy Violet.

New Double White Perpetual Flowering Violet,

Swanley White, or Queen of Fragrance.

Of all the White Violets, this is the best, either for pot culture in the house or bedded out. In pots it grows luxuriantly, and is loaded with flowers. It is not an uncommon sight to see as many as fifty large flowers open at once, presenting a beautiful sight, their delicious perfume filling a whole room. Price, 10 cents each.

New Single Violet,

Princess of Wales.

Is far ahead of any other single Violet known; hardy, vigorous growth; plants are wonderfully free-flowering, with stems from ten to twelve inches long, large green leaves of a thick, leathery texture. The grand single flowers, of a true violet-blue color that does not fade, are of round, symmetrical form, almost as large as pansies, and of the richest, most delicious fragrance. So large and circular are the flowers that some blooms will cover a silver dollar. Price, 15 cents each.

Double White Perpetual Flowering Violet, Swanley White.

The Beautiful Mexican Primrose.

A charming basket or pot plant. It is certainly a very worthy plant, and indispensable to every collection. Flowers beautiful bright, clear pink color, veined scarlet, with bright center. Plant seldom grows over 10 inches high, but inclines to a trailing habit, spreading its branches out over the ground or drooping over the sides of the pot. We offer nice plants at 8 cents each; 4 for 25 cents; 10 for 50 cents.

Solanum Jasminoides Grandiflorum.

Beautiful plant of climbing habit, attaining a height of 3 to 5 ft., but can be grown in bush form; flowers star shaped, borne in clusters, large, pure white, with violet tinge on back of petals and on buds. In pots it is a continuous bloomer both Summer and Winter. Price, 10 cents each.

Carex Japonica Variegata.

New ornamental Japanese grass; extremely useful as a house plant; of easy growth, standing dry atmosphere of heated rooms with impunity, and at the same time hardy if planted out in the garden in Summer. Price, 15 cents each.

Feverfew—Little Gem.

The great value of the old Dwarf Feverfew for cut flowers during the Summer, Fall and Winter is well known to florists and others. This variety surpasses it in every way. It is very dwarf, attaining a height of from 12 to 18 inches. The flowers are larger, of more perfect form and of purest white. Price, 10 cents each; three for 25 cents.

Swainsonia Galegifolia Alba.

A most desirable ever-blooming plant, with pure white flowers, produced in sprays from 12 to 20 flowers each, the individual blooms resembling a Sweet Pea. As a decorative plant for the window or conservatory, we know of nothing that will give as much satisfaction as the Swainsonia. Its easy culture, growing in almost any light position, beauty of the flower, and entire plant will undoubtedly make this one of the most popular plants in cultivation. Price, 15c each.
